***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

- elect*
- I. The species best illustrated by claims 2-5, 26-30, 57-59 and 68.
  - II. The species best illustrated by claims 6 and 61.
  - III. The species best illustrated by claims 7, 8 and 62.
  - IV. The species best illustrated by claims 9-13, 60 and 63-66.
  - V. The species best illustrated by claims 14-18, 25 and 67.
  - VI. The species best illustrated by claims 19-23 and 69-77.
  - VII. The species best illustrated by claim 24.
  - VIII. The species best illustrated by claims 33-38 and 46-49.
  - IX. The species best illustrated by claim 39.
  - X. The species best illustrated by claims 40 and 41.
  - XI. The species best illustrated by claims 42-45.
  - XII. The species best illustrated by claims 31 and 50-55.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1 and 56 are deemed generic with respect

Art Unit: 2857

to species I – VII and therefore claims 1 and 56 shall be examined if the applicant elects any one of species I – VII. Currently, claim 32 is deemed generic to species VIII – XI and therefore claim 32 shall be examined if the applicant elects any one of species VIII – XI.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 2857

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
4. No telephone call was made to the Applicant to request a telephone election because of the complexities of the issues at hand (see MPEP 812.01).
